

The Building Owners and Managers Association of Canada has announced the winners of the prestigious 2005 national awards in recognition of excellence in the Canadian commercial real estate industry.

The President of BOMA Canada, Hugh Gorman, offers his congratulations to all finalists, each of whom has already been an award winner at the local level, "BOMA Canada's national awards program recognizes the very best of the dynamic Canadian commercial real estate industry," Gorman said. "These awards acknowledge the special efforts made by those in the industry whose leadership and hard work set new benchmarks and define the shape of things to come."

The Office Building of the Year (TOBY) Awards salute the stars of the commercial real estate industry, recognizing excellence in property management, operations, resource conservation, environmental awareness, leasing and building design, customer service and innovation.

The **Earth Award** is BOMA Canada's recognition of excellence in resource preservation and environmentally sound commercial building management. The BOMA Canada Earth Award for 2005 will be presented to a building that has made significant efforts to address environmental issues faced by both older and newer buildings.

BOMA Canada's **Pinnacle Awards** recognize companies that represent a standard of excellence to which all BOMA members and their employees should aspire. The Pinnacle Awards recognize innovation, teamwork, outstanding service and commitment to clients.

Winners of these prestigious awards were announced and presented at the 2005 BOMA Canada National Awards Gala, held September 16, 2005 during BOMEX[®] in Calgary, Alberta. More details on BOMEX[®], BOMA Canada's National Conference and Exposition, are available on the website: www.bomex.ca.
