

PANDEMIC PLANNING

Are you prepared?

You can be!

Join us at BOMEX® 2009
September 22 - 24, Montreal
www.bomex.ca

Are you prepared for the next waves of Swine Flu (H1N1) and Avian Flu (H5N1)?

Do you have your Pandemic plan in place? Have you tested it?

Have you identified your critical functions and minimum staffing requirements?

Do you have a communications plan for keeping your tenants, employees and other stakeholders informed?

Do you know what you will do if your employees, contractors or service providers refuse to come to work?

Have you made a decision about stockpiling personal protective equipment and antiviral medication?

Do you have questions about how to use the BOMA Influenza Pandemic Guide and Toolkit to create your plan?

BOMA Canada is pleased to introduce a Pandemic Planning Training Program, facilitated by Marsh Canada Limited. The program has been tailored to meet the needs of our members and will build on the BOMA Influenza Planning Guide and Toolkit. The program is offered through a series of WebEx training sessions that address all elements of a comprehensive pandemic planning program and is being launched at BOMEX® 2009, September 22 – 24th, in Montréal Canada.

This program is directed at Property and Facility Managers and other individuals at Real Estate Companies who:

- May have full (or partial) responsibility for the implementation of a Pandemic Preparedness Program
- May make (or assist in making) decisions in response to a Pandemic threat
- Have responsibility for the safety of individuals (employees or tenants)
